

TecAir Tipper Truck Valve Bank

TecAir supply a compact, rugged, purpose built valve assembly for either truck or truck & trailer control in 12V or 24V DC.

- One piece aluminium base – rugged & anodised for corrosion protection
- Protective cover with seal – water & dirt proof.
- Valves integral with the manifold – Less pneumatic fittings, reduced chance of leakage.
- Push fit Imperial or Metric fittings – Fast assembly
- Manual overrides accessed from outside – No need to remove cover
- Ready wired with 6mtr lead* – Fast installation
- Mounting bracket in stainless steel – corrosion resistance
- Australian manufacture – local support & backup

*Other lengths on request
